

5	The correct application fee must be included with the application (refer to Fees section in Part 5 of the application form).	<input type="checkbox"/>
6	In most cases, Mining Act tenure or Petroleum tenure should be Live. For consideration of clearing applications on pending tenure, the applicant must provide evidence that the tenure will soon be granted and that there is a legal right of access (eg. a letter of intention from a statutory authority to grant the title).	<input type="checkbox"/>
7	The purpose of the proposed clearing must be compatible with the tenure type/s, (for example: Mining cannot be conducted on an Exploration Licence).	<input type="checkbox"/>
8	Are all Tenements/Leases in the name of the applicant? NO → go to step 8(a) YES → go to step 9	
	8(a) A Letter of Authority must be provided from Tenement/Lease Holder/s, authorising the applicant to apply for a clearing permit and conduct the proposed works on their tenement.	<input type="checkbox"/>
9	A digital shapefile of the area proposed to clear should be provided. The shapefile must contain a polygon that represents the outer extent of the area in which the proposed clearing is to take place. If indicative locations of clearing within this outer boundary can be determined, they should be provided in a separate PDF or hard copy, but not as a shapefile (Please refer to guideline document for further details of the required shapefile format. **) <u>NB:</u> If digital spatial information cannot be provided, a scaled map of the area proposed to clear must be provided, including latitudes and longitudes (coordinates) of the outer boundary of the area within which the proposed clearing is to take place.	<input type="checkbox"/>
10	The shape-file must be located wholly within the tenements listed on the application form. (The application form should list ONLY the tenements that are intersected by the shape-file.)	<input type="checkbox"/>
11	Supporting documentation should be included with your application. (Please refer to guideline document for further details of the types of supporting information that should be provided with your application**)	<input type="checkbox"/>
12	The size, shape and location of the shapefile should be consistent with maps and descriptions of the proposed activity provided in the supporting documentation	<input type="checkbox"/>
13	<u>Either</u> 13a: For Area permits The size of the area applied to clear must be the <u>SAME</u> size as the shape-file	<input type="checkbox"/>
	<u>OR</u> 13b: For PURPOSE Permits The area applied to clear must be <u>LESS THAN OR EQUAL TO</u> the size of the shape-file	<input type="checkbox"/>

**Please refer to the guideline document: ["Information required to assess your Clearing Permit application"](http://www.dmp.wa.gov.au/documents/ED_NVAB_GL_InformationrequiredtoAssessApplication.pdf) available at the following link on the DMP website for further information to assist with compiling your clearing permit application.
