1. Preliminary releases are made on a case-by-case basis and consist of ecw images and ERMapper grids of **partially processed and unchecked data**.

2. Prince Regent–Montague Sound 2011 flown at 800 m offset by 400 m from existing 800 m survey (P614). Data from both surveys will be integrated to produce a single 400 m dataset.

3. Mt Barker survey was suspended in May 2011 and resumed in Jan 2012.
