

APPLICATION FOR APPROVAL TO CONDUCT AN OFFSHORE SURVEY (OPGGSA06)

1. Primary Title Number		2. Secondary Title(s)	
3. Titleholder (Operator)			
Company			
Phone		Fax	
Postal Address			
Suburb		State	Postcode
4. Contact person regarding this application			
Name		Position Held	
Phone	Fax	E-mail	
5. Details of survey			
Survey Name		Application for Access Authority ¹	
		Please identify blocks affected on next page	
Prime Survey		Secondary Survey	
Technique		Energy source	
Proposed Line km or km ²		Estimated cost (\$A)	
Scheduled commencement date		Estimated duration in days	
Object of survey (attach statement if insufficient space)			
6. Contractor			
Company			
Postal Address		State	Postcode
Phone		Fax	
Name of vessel		Port from which the vessel will operate	
Navigational system			
7. Signature of applicant or agent (Agent should demonstrate proof of authority)			
Sign		Date	

8. Accompanying information required (1 copy of each, or as otherwise stated)

Contact details for enquiries relating to each of the following are referenced in Attachment 1.

- Two (2) plans (One A4 size) showing the proposed survey together with the graticular grid and block numbers with each 1:1 000 000 mapsheet labelled and the current titles shown ².
This information must be provided in digital format ³
- A list of 1:1 000 000 mapsheet block numbers to be provided for the survey and for each access authority required listed against each petroleum title affected.
This information must be provided in digital format ³
- Encroachments onto any Conservation Reserves, Marine Parks and environmentally sensitive areas to be identified and illustrated on submitted maps.
- Environment Plan (2 copies if not previously submitted)
- Data Management Plan (if not previously submitted).
- Details of how this proposed survey contributes to your work commitment for the tenement (exploration titles only).
- I am aware of and have actioned the following as applicable:
Petroleum (Submerged Lands) (Management of Environment) Regulations 1999
Schedule of Specific Requirements as to Offshore Petroleum Exploration and Production Consolidated November 2005
Guidelines for Seismic Surveys in WA Rock Lobster Fishing Grounds
Guidelines on minimising acoustic disturbance to marine fauna

9. Timing of submission of application

Applications for surveys are required to be lodged at least 30 days prior to commencement. However, to allow for timely approval and consideration of factors such as environmental assessment and land access issues, it is recommended that applications be submitted **90 days** prior to commencement of operations.

FOR BETTER SERVICE

DMP considers an application to be formally submitted on the date that all required information is received. The provision of all of the required documentation will enable us to provide you with a better service, and assist in timely assessment. If sufficient detail is not provided in your submission, it may be returned with a request to resubmit a completed application.

Notes: The attention of the applicant is drawn to the requirements of the Offshore Petroleum & Greenhouse Gas Storage Act 2006, Petroleum (Submerged Lands) (Management of Environment) Regulations 1999 and the Schedule of Specific Requirements as to Offshore Petroleum Exploration and Production Consolidated November 2005.

Approval issued by the Executive Director of Petroleum and Environment Division does not remove any obligations you may have under other legislation.

APPLICATION TO BE MADE TO:

EXECUTIVE DIRECTOR
PETROLEUM AND ENVIRONMENT DIVISION
DEPARTMENT OF MINES AND PETROLEUM
MINERAL HOUSE, 100 PLAIN ST
EAST PERTH WA 6004

ATTENTION: SENIOR TITLES OFFICER

NOTES:

- 1 **Application for Access Authority** form required if lines extend into vacant ground or onto another holder's title.

(Please Note that no operations are to be commenced within the Access Authority area until the consent (in writing) of the relevant registered holder(s) has first been obtained. *(In this regard the Access Authority is invalid until such consent is received and any part of the surveys conducted in breach of this condition would be unlawful and liable to penalties viz S97 of the OPGGSA06).*

All consents of the relevant registered holders must be retained in hard copy format to ensure that you have adequate records of the consents given. These consents are not required to be forwarded to DMP but will be audited.

Where a survey affects more than one title it is generally required that separate applications are made for each title affected (ie where the survey is in discrete parts).

However, where a survey affects more than one title and the survey lines are continuous only one application is required.

Where application is made for approval of a continuous survey, which affects more than one title but those titles have different title holders, application for an Access Authority would need to be made.

Where a survey extends beyond the jurisdiction of WA DMP into an adjoining offshore area application for Access Authority will need to be made in respect of those blocks affected.

- 2 **2D surveys** to have the seismic lines drawn on the graticular grid and block numbers with each 1:1 000 000 mapsheet labelled

3D surveys to have the survey perimeter drawn on a map showing the graticular grid and block numbers with each 1:1 000 000 mapsheet labelled. Geographical or MGA coordinates of the survey perimeter to be provided to define the extent of the survey.

- 3 **Digital mapping data** is to be provided as ESRI shapefiles or Microstation DGN files in a deprojected (latitude/longitude) format. The coordinate datum is to be GDA94. Data is to be emailed to: petroleum.mapping@dmp.wa.gov.au.

Reporting Requirements:

Weekly reports are required from commencement of survey till completion which provide details of:

- Start & completion dates
- Line km acquired for 2D
- Square km acquired for 3D
- General report on weeks activities

APPLICATION TO CONDUCT AN OFFSHORE SURVEY (OPGSA06)
