Contact details for enquiries relating to each of the following are referenced in Attachment 1.

- Topographic and DLI public lands map, showing the well in relation to the tenement boundaries, containing a scale and latitudes and longitudes.
- Safety plan, including a "Drilling Operations Manual", "Safety Manual" and "Emergency Response Plan", and technical details of the drilling rig and equipment if not previously submitted.
- Geological Prognosis, with seismic map and section(s).
- Drilling Programme.
- Environmental Management Plan (EMP).
- Check if a Native Vegetation Clearing Permit is required (see Attachment 1 for contact details).
Note: A Clearing Permit can take a minimum of 3 months to be issued
- Although an OSCP is not required for onshore operations, details of oil spill response should form part of the Emergency Response Plan or the EMP.
- Details of how this proposed well contributes to your work commitment for the tenement (exploration titles only) (1 copy).
- I am aware of and have actioned the following as applicable:
 - Guidelines to Clearing Permit Applications in Western Australia
 - Environmental Assessment Processes for Petroleum Activities in Western Australia
 - Schedule of Onshore Petroleum Exploration & Production Requirements 1991
 - Schedule of General Requirements for Occupational Health and Safety 1993
 - Consulting Citizens Engaging with Aboriginal Western Australians
 - Guidelines on the use and management of drilling fluids and cuttings

8. Timing of submission of application

To allow for timely approval and consideration of factors such as environmental assessment and land access issues, it is recommended that applications be submitted **3 months** prior to commencement of operations.

FOR BETTER SERVICE

The DMP considers an application to be formally submitted on the date that all required information is received. The provision of all of the required documentation will enable us to provide you with a better service, and assist in timely approval. If sufficient detail is not provided in your submission, it may be returned with a request to resubmit a completed application.

Notes: The attention of the applicant is drawn to the requirements of the Petroleum and Geothermal Energy Resources Act 1967 and the Schedule of Onshore Petroleum Exploration and Production Requirements 1991.

Approval issued by the Director of Petroleum and Environment Division does not remove any obligations you may have under other legislation.

Consulting Citizens Engaging with Aboriginal Western Australians are available, to assist in any consultation with Aboriginal groups regarding your requirements under the Aboriginal Heritage Act.

APPLICATION TO BE MADE TO:

EXECUTIVE DIRECTOR
PETROLEUM AND ENVIRONMENT DIVISION
DEPARTMENT OF MINES AND PETROLEUM
MINERAL HOUSE, 100 PLAIN ST
EAST PERTH WA 6004

ATTENTION: SENIOR TITLES OFFICER

You should note that the proposed well may be located on private land, and mining tenements may also be affected. In this regard, you must obtain the necessary consents before commencing operations. Sections 16 to 20 of the Petroleum and Geothermal Energy Resources Act 1967 refer.
