

DMIRS Occupational Licensing Performance Report March Quarter 2023

The Department of Mines, Industry Regulation and Safety (DMIRS) administers more than 100 diverse and complex licence types. These cover the majority of Western Australia's occupational licensing and include building, painting, plumbing, electrical, gas, WorkSafe High Risk Work, motor vehicles, property industries and other Consumer Protection licensing. These licences all involve a large number of differing legislative, assessment and administrative requirements.

DMIRS licensing performance target is to finalise at least 80 per cent of applications within the target timeline. For example, DMIRS aims to finalise 80 per cent of Electrician Licence applications within 10 business days.

During the March quarter, DMIRS processed 564 Registered Building Contractor and Practitioner, 290 Registered Painting Contractor and Practitioner and 373 Registered Building Surveyor and Owner Builder licence applications.

DMIRS finalised 32 per cent of Registered Building Contractor and Practitioner applications, 79 per cent of Registered Painting Contractor and Practitioner applications and 98 per cent of Registered Building Surveyors and Owner Builder applications within 50 business days.

The department finalised 1483 Electrical Licence applications during the quarter. Eighty three per cent of electrical licensing applications were finalised within 10 business days.

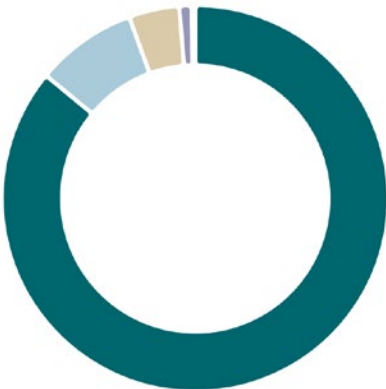

WorkSafe High Risk Work Licence (HRWL) licensing performance improved slightly during the quarter but continues to remain well below target given the continuing high demand for these licences. Efforts to elevate HRWL licensing performance are underway.

During the quarter, DMIRS completed online licensing functions for motor vehicle and property industries licensing. Around 98 per cent of all DMIRS occupational licensing has an online lodgement option. Online options for the remaining WorkSafe HRWL applications are expected to be completed during the June quarter.
