DESCRIPTION OF BLOCKS

The references hereunder are to the names of map sheets of the 1:1,000,000 series published by the Minister and to the numbers of graticular sections shown thereon.

Titles/vacant areas requiring access ⁴	Registered Holder's Name(s)	1:1,000,000 Map Sheet Block No(s).

To successfully submit an application for an Offshore Access Authority, the application must be made in the approved manner, which includes completion of this form and include the submission of complete and comprehensive attachments providing the information detailed below. The application cannot be considered lodged without the required information and may be REFUSED if incomplete.

Accompanying information required (1 copy of each, or as otherwise stated)

Contact details for enquiries relating to each of the following are referenced in Attachment 1.

- Two (2) plans (One A4 size) showing the proposed survey or deviated well location together with the graticular grid and block numbers with each 1:1,000,000 Map Sheet labelled, the current titles shown and a Cadastral Landgate map showing the cadastral tenure affected.⁵

This information must be provided in digital format ⁶

- A list of 1:1,000,000 Map Sheet block numbers to be provided for the survey and for each access authority required listed against each petroleum title affected.

This information must be provided in digital format ⁶

- Encroachments onto any Conservation Reserves, Marine Parks and environmentally sensitive areas to be identified and illustrated on above submitted maps.
- Environment Plan⁷ (if not previously submitted).
- Safety Management System⁸ (if not previously submitted).
- Check if a Native Vegetation Clearing Permit is required (see Attachment 1 for contact details).

Note: A Clearing Permit can take a minimum of 3 months to be issued.

- I am aware of and have actioned the following as applicable:

Petroleum (Submerged Lands) (Resources Management and Administration) Regulations 2015

Petroleum (Submerged Lands) (Environment) Regulations 2012

Petroleum (Submerged Lands) (Management of Safety on Offshore Facilities) Regulations 2007

Petroleum (Submerged Lands) (Occupational Safety and Health) Regulations 2007

Guidelines for Seismic Surveys in WA Rock Lobster Fishing Grounds

Guidelines on minimising acoustic disturbance to marine fauna

"Aboriginal Heritage Due Diligence Guidelines"

Timing of submission of application

Applications for surveys and deviated wells are required to be lodged at least **1 month prior to commencement**. However, to allow for timely approval and consideration of factors such as environmental assessment and land access issues, it is recommended that applications be submitted 3 months prior to commencement of operations.

Notes:

- The attention of the applicant is drawn to the requirements of the *Petroleum (Submerged Lands) Act 1982* and all associated Regulations.
- Approval issued by the Executive Director Resource Tenure Division does not remove any obligation you may have under other legislation.
- The "Aboriginal Heritage Due Diligence Guidelines" was developed by the Department of the Premier and Cabinet to assist in consultation with Aboriginal groups regarding your requirements under the *Aboriginal Heritage Act 1972*.

SUBMISSION OF APPLICATION

Application, together with supporting data should be submitted online through the Petroleum and Geothermal Register (PGR).

NOTES

- 1 The applicant must be the holder of a petroleum permit, lease, licence, drilling reservation or special prospecting authority, whether within the jurisdiction being accessed or not.
- 2 The applicant must demonstrate the relationship between the petroleum title (the initiating title) and the area to be accessed.
- 3 Please Note that no operations are to be commenced within the Access Authority area until the consent (in writing) of the relevant registered holder(s) has first been obtained. *(In this regard the Access Authority is invalid until such consent is received and any part of the surveys conducted in breach of this condition would be unlawful and liable to penalties viz S19 of the PSLA82).*

All consents of the relevant registered holders must be retained in hard copy format to ensure that you have adequate records of the consents given. These consents are not required to be forwarded to DMIRS but will be audited.
- 4 Consent is required from the holder(s) of the title to be accessed before operations can commence. Should that approval not be forthcoming the referral provisions and Minister's discretion as provided for in the PSLA82 may be invoked.
- 5 **2D surveys** to have the seismic lines drawn on the graticular grid and block numbers with each 1:1,000,000 Map Sheet labelled and ArcGIS shapefiles of this data.

3D surveys to have the survey perimeter drawn on a map showing the graticular grid and block numbers with each 1:1,000,000 Map Sheet labelled and ArcGIS shapefiles of this data.
- 6 **Digital mapping data** is to be provided as ArcGIS shapefiles or MapInfo tabfile together with associated files. The coordinate datum is to be GDA 94 and in the deprojected (latitude/longitude) format. Preferably, data is to be emailed to: petroleum.mapping@dmirs.wa.gov.au, quoting the survey name or deviated well name or, alternatively, submitted on disc with the completed application
- 7 **Environment Plan** requirements as per the *Petroleum (Submerged Lands) (Environment) Regulations 2012*.
- 8 **Safety Management System** requirements as per the *Petroleum (Submerged Lands) (Management of Safety on Offshore Facilities) Regulations 2007*.
- 9 Where additional information is required to be entered on the form, (e.g. Company Names, etc) please use an Appendix and submit online with this form.
