

# MINING REHABILITATION ADVISORY PANEL

## COMMUNIQUE – March 2019

### A summary of the Mining Rehabilitation Advisory Panel's Meeting on 20 March 2019

#### **1. Pro-Force Pilot – addressing residual safety risks**

Following a post-implementation review of the works undertaken at the Pro-Force site, some residual safety risks associated with the site were identified. Additional expenditure was endorsed by the Panel in November 2018 to address these residual safety risks. The Goldfields Land and Sea Council Land Management Rangers were contracted to conduct the work which has now been completed.

#### **2. Bulong Pilot- Preliminary Site Investigation**

In July 2018 the Panel announced the endorsement Bulong Project Plan Stage 1. The Project Plan involved the undertaking of a Preliminary Site Investigation (risk assessment) which has now been completed and the report was provided to the Panel. At this meeting the Panel the next phase for the Bulong Project, being the Plan for Stage 1B.

#### **3. Elverdton Pilot - Preliminary Site Investigation**

In October 2018 the Panel announced the endorsement of the Elverdton Project Plan for Stage 1. The Stage 1 Project Plan involves undertaking a Preliminary Site Investigation (risk assessment) which is now confirmed to be undertaken in Quarter 2 of 2019. At this meeting the Panel endorsed the Plan for Stage 2 of the Elverdton Pilot Project.
